DOCUMENTARY PHOTOGRAPHY

Questionnaire – After the project

Answer the following questions once you have completed all the other parts of your portfolio.

- What did you like about the project?

- What would you change about the project?

- What did you learn (e.g. about language, about photography, about yourself, ...)?

- Look at the first questionnaire again and see if you would still give the same answers today. Answer the following question: How have your answers changed and if so, why do you think they have changed?
