HORROR SHORTS

Making your own horror short

Make your own horror short. Your film should be 2 or 3 minutes long and scare your audience!

Use your results from your previous work when planning your horror short.

Follow these steps in the production process.

- 1. Organise your ideas about the narrative and cinematic techniques you want to apply. Make a grid like the one below.**

Title: _____

What is the story? (narrative techniques)	How is it filmed? (cinematic techniques)
plot:	camera operations:
characters:	film music:
setting:	sound effects:
other features:	other effects:

- 2. Make a storyboard to plan your plot and your camera operations.**
- 3. Write the dialogue (if there is any) and the film script before you start filming.**
- 4. Find a title for your horror short.**
- 5. Film and edit your horror short ... and present it at our *Screamfest*!**
